## Mega Top Unit

Food Prep Tables  
 Super Deluxe Series

**Model : TST-28SD-12**

**Self-Cleaning  
 Condenser**

**NO MAINTENANCE REQUIRED**

### ≡ FEATURES & BENEFITS ≡

■ **Self-cleaning condenser device** Only at Turbo Air

The accumulation of dust in the condenser causes the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products in refrigerators. The self-cleaning condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.

■ **Cold air compartment**

Our innovative "Cold air compartment" maintains temperature evenly for each pan to preserve fresh food longer. In addition, the compartment isolates pans from the reach-in area to prevent food spillage.

■ **Stainless steel cabinet construction**

The Turbo Air Super Deluxe model boasts a stainless steel interior and exterior (galvanized steel back & bottom). It guarantees the utmost in cleanliness and long product life. The Super Deluxe can add a touch of style to the most refined setting.

■ **Sturdy, clean stainless steel shelving**

Only Turbo Air models

Shelves are the most important part of cleanliness as they come in direct contact with food. After a while, PVC coated wire shelves may peel, rust and lead to unsanitary conditions. Only the Turbo Air Super Deluxe series uniquely provides stainless steel shelving.

■ **Efficient refrigeration system**

Turbo Air's solid door refrigerators are designed with oversized and balanced (CFC Free R-134A) refrigeration systems. These include efficient evaporators and condensers for faster cooling and greater efficiency.

■ **9-1/2" deep, 1/2" thick cutting board included with convenient side rail**

■ **Insulated pan cover**

■ **High-density polyurethane insulation**

The entire cabinet structure and solid doors are foamed-in-place high density, CFC free polyurethane insulation.

■ **Refrigerator holds 33°F ~ 39°F for the best in food preservation**
